ZULFAHMI

FULL STACK WEB / CROSS PLATFORM MOBILE / SMART INTERFACES

Bandung, Jawa Barat, Indonesia

zulfahmi@zulfahmi.web.id zulfahmi.web.id github.com/f4hmii

PROFILE

I help businesses digitize their workflows and reach customers on any screen by connecting robust APIs with fast, intuitive web dashboards and mobile applications.
Technology should not be complicated. No bloat, just working software.

CORE STACK

Frontend	React, Next.js, TypeScript, JavaScript, Tailwind CSS
Backend	Laravel, Node.js, Express.js, MySQL, Supabase
Mobile	Flutter, Dart
Tools	Git, GitHub, Postman, Laragon, Cloudflare Pages, Vercel

ENGINEERING DISCIPLINES

Process and System Design
BPMN 2.0 workflows, relational database schemas, wireframes

Backend and API Architecture
RESTful APIs, authentication layers, optimized SQL queries

Web Dashboards and Portals
Admin panels, custom CMS platforms, customer portals

Multiplatform Mobile Apps
